Register As a Student

The screenshot shows a web browser window with the URL `localhost:3000/register`. The page has a blue header with the text "E-Learning" and two buttons: "Login" and "Register". The main content area is titled "Register" and contains four input fields: "Name:", "Email:", "Password:", and "Role:". The "Role:" field has a dropdown menu with "Student" selected. Below the fields is a blue "Register" button.

Register As a Instructor

The screenshot shows the same web browser window as the previous one, but the "Role:" dropdown menu now has "Instructor" selected. The "Register" button remains visible below the fields.

Instructor Login

As when Instructor Login the page He Can Add the Course ,add the quiz,update ,delete,enrollment of course and List the userd.

Note:Where you can find your id which is use for adding the course as instructor whre it ask a instructor Id so you can get your Id .If you use different Id Youcant update or Delte the course.

Note :Only After enrolling the coure then only viewModule Page will Appear and Instructor only can update ,delete the course if he is the person who has created the Course.
